

The zodiac sign Leo is ruled by the sun. Leos are noble and generous, although their self-esteem is sometimes too high. They are too self-assured, direct and speak their minds. They are brave and loyal. They like leading others. Leos are strongly attracted by the opposite sex. God help anyone who dares to hurt a Leo's child. Leos like dramatizing, therefore the seeming role they play, can in a flash become their real self. Self-preservation especially matters to them. A Leo would do anything in order to pay the price of applauds and stand in the limelight. Should, however, a Leo be in a situation they find confining, they simply quit.
